Comment

the collection of this information by the cdc is unnecessary and inaccurate. the method of collection allows endless errors to be collected and then disseminated as inaccurate information. the cdc takes little effort in making sure its work is correct.

the cdc is a lax, negligent, inaccudate agency that does not care whether it is honest or correct. it just wants its salary and cares nothing about accuracy. forthat reason, this report is worth nothing to the us public. shut it down. cut the budget for this report. it is totally inaccurate.
